# FEATURES

*“ Work Smarter, Not Harder...  
Clean your pool the easy  
way with a robot “*

Brushes, scrubs and filters dirt and debris.

Thorough cleaning of pool floors, walls and waterlines.

Creates excellent pool water that is clear and feels fresh.

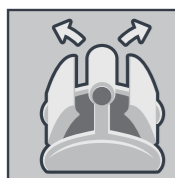

## MAXIMUM COVERAGE

Using an intelligent navigation system with scanning software enables systematic cleaning that ensures maximum coverage for your pool.

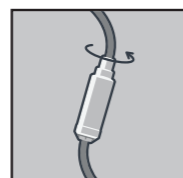

## ENERGY SAVING

Studies prove that robotic pool cleaners are the most efficient way to clean your pool! Depending on your current pool cleaner, savings of up to \$960 per year can be achieved.

## HASSLE FREE OPERATION

- All models are plug & play meaning initial set-up is a breeze
- Internal filtration systems are simple to remove and clean from the robot
- A caddy is available for easy handling and storage.

## SWIVEL CABLE

All **REVOLUTION** models feature a swivel cable to prevent tangled cables forever! As your robotic pool cleaner moves around the pool, the swivel ensures that the cable stays free and clear.

*“I love the REVOLUTION robotic pool cleaner, it climbs the walls and has a bag filter (underneath) to help with filtration. I have a gumtree that drops leaves and seed pods twice every year and I can't imagine life without this cleaner, I probably wouldn't have a pool! It has been amazing!”*

*K. Anderson, Sydney NSW.*

# REVOLUTION III

The **REVOLUTION III** takes robotic pool cleaning to the next level. Packed full of useful features for advanced operation and convenience that removes all the hard work from pool cleaning. Discover the ultimate in pool cleaning technology today.
